Geologiske kart og data på internett: www.ngu.no

Bergarter dannet og/eller omdannet under den svekonorvegiske fjellkjededannelsen *Rocks formed and/or metamorphosed during the Sveconorwegian Orogeny*

Rogaland anortositkompleks (ca. 930 millioner år)
Rogaland Anorthosit Complex (c. 930 million years)

	Bjerkreim - Sokndalsinstrusjonen <i>Bjerkreim - Sokndal intrusion</i>
	Egersund-Ogna-anortositten <i>Egersund-Ogna anorthosite body</i>

Bergarter av mesoproterozoisk alder (1500-1000 millioner år)
 Rocks of Mesoproterozoic age (1500-1000 million years)

	Omdannede sedimentære bergarter av sten alder (ca. 1200 million years) <i>Metasedimentary rocks of Stenian age (c 1200 million years)</i>
	Omdannede dypbergarter av sen ektaas alder (ca. 1250-1200 million years) <i>Metamorphosed plutonic rocks of Late Ectasian age (c 1250-1200 million years)</i>

	Omdannede sedimentære bergarter av ektaš alder (ca. 1400 millioner år). Metasedimentary rocks of Ectasian age c 1400-1200 million years.
	Omdannede magmatiske bergarter av kalymsk alder (ca. 1500-1400 millioner år). Metamorphosed igneous rocks of Calymmian age (1500-1400 million years).
