Geologiske kart og data på internett: www.ngu.no
Geological Survey of Norway maps: www.ngu.no

| LØSMASSE | |
|---|--|
| Superficial deposits | |
| Morenemateriale, sammenhengende dekke, stedvis med stor mktighet | Till, continuous cover, very thick in places |
| Morenemateriale, usammenhengende eller tynnt dekk over berggrunnen | Moraine, discontinuous or thin cover over the bedrock |
| Randmorene/randmorenbelte | Margin moraine/zone of marginal moraines |
| Brekkavestning (Glaesial avsetning) | Breccia (Glaciated brecciation) |
| Hav- og fjordavsetning, sammenhengende dekke, ofte med stor mktighet | Main strandavsetning, continuous cover, locally of great thickness / Main fine-grained deposit, continuous cover |
| Hav- og fjordavsetning og strandavsetning, usammenhengende eller tynnt dekk over berggrunnen | Main strandavsetning and beach deposit, discontinuous or thin cover over the bedrock |
| Fluvial avsetning (Fluvial avsetning) | Fluvial deposit |
| Vindavsetning (Eolisk avsetning) | Wind deposit |
| Eolian deposit | Eolian deposit |
| Morenemateriale, ikke innslitt etter mktighet | Colluvium (clastic material), not classified according to thickness |
| Skredmateriale, sammenhengende dekke, stedvis med stor mktighet/ steinsprang og fjellsidesneskred/tasmaskeskred | Rockfall/Snow avalanche / Debris avalanche |
| Humusdekket/tondekket over berggrunn | Humus cover/peat cover over bedrock |
| Fylmasset (anthropogenic material) | Fylmasset (anthropogenic material) |
| BART FJELL | BART FJELL |
| Exposed bedrock | Exposed bedrock |
| Bart fjell | Bart fjell |
| Exposed bedrock | Exposed bedrock |
| Liten fjellblokk | Liten fjellblokk |
| Smal eksposisjon av bedrock | Small exposure of bedrock |

SMA ELLER VANSKELIG AVGRÆNSBARE AVSETNINGER I OMRADE DOMINERT AV ANDRE LØSMASSE / BART FJELL

Sporadic deposits in areas dominated by other superficial deposits or exposed bedrock

| V | P |

Symbolene brukes enkelt når en fraksjon utgjør mer enn 80%. Sammensatte symboler brukes flere fraksjoner i et samme område, som vist til høyre.

The symbols are used individually when one fraction exceeds 80%. Combined symbols are used when several fractions are present, the largest fraction being indicated last.

| | |
|--|--|
| EKSEMPLER | EXAMPLES |
| ○ Sandig grus (SG) Most gravel, sand less than 10% | ○ Sandy gravel (SG) Most gravel, sand less than 10% |
| ● Grusig sand (GS) Most sand, gravel less than 10% | ● Gravelly sand (GS) Most sand, gravel less than 10% |
| • Sand (S) 0.063mm - 0.020mm | • Silt (S) 0.020mm - 0.002mm |
| - Silt (S) 0.002mm - 0.001mm | - Clay (L) 0.001mm - 0.0001mm |
| ~ Clay (L) 0.0001mm - 0.00001mm | ~ Clayey silt (LS) Most silt, clay more than 10% |

| | |
|--|--|
| KORNSTØRRELSE | GRAIN SIZE |
| ○ Stein (St) 256mm - 64mm | ○ Weathered material |
| ● Grus (G) 64mm - 2mm | ● Soil, weathered surface |
| • Stein (St) 64mm - 2mm | ● Rapid mass-movement deposit |
| - Sand (S) 2mm - 0.063mm | ● Stein sprang/Steinsprang |
| - Sand (S) 0.063mm - 0.002mm | ● Rock fall/Rock fall deposit |
| ~ Silt (S) 0.002mm - 0.001mm | ● Torg og tømmer/Torv og tømmer |
| ~ Clay (L) 0.001mm - 0.0001mm | ● Humusdekket/tondekket over berggrunnen |
| ~ Clayey silt (LS) Most silt, clay more than 10% | ● Fylmasset (anthropogenic material) |
| ~ Clayey silt (LS) Most silt, clay more than 10% | ● Exposed bedrock |

Symbolene brukes enkelt når en fraksjon utgjør mer enn 80%. Sammensatte symboler brukes flere fraksjoner i et samme område, som vist til høyre.

The symbols are used individually when one fraction exceeds 80%. Combined symbols are used when several fractions are present, the largest fraction being indicated last.

SYMBOLER

Exemples

• Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0.063mm - 0.020mm

• Silt (S) 0.020mm - 0.002mm

• Clay (L) 0.001mm - 0.0001mm

~ Clayey silt (LS) Most silt, clay more than 10%

Exemples

○ Sandig grus (SG) Most gravel, sand less than 10%

● Grusig sand (GS) Most sand, gravel less than 10%

• Sand (S) 0
