

# 7<sup>th</sup> International Conference on Arctic Margins

## List of Presentations:

N. Alexandropoulou, K. Andreassen, M. Winsborrow, J.I. Faleide & J.P. Nystuen: **Late Cenozoic evolution of the western Barents Sea-Svalbard continental margin. Case study: Upper Bjørnøya Fan, western Barents Sea margin**

K. Andreassen, L.R. Bjarnadóttir, M.C.M. Winsborrow, H. Patton & A. Hubbard: **Patterns of past ice-sheet flow in the Barents Sea**

J.E. Arndt, W. Jokat & B. Dorschel: **New insights on the glacial history of North-East Greenland from swath bathymetric data**

E.V. Artyushkov, P.A. Chekhovich & E.I. Petrov: **Mechanism of crustal subsidence in deep Arctic basins**

K. Asch & H.-J. Kumpel: **A Project Proposal: Compilation of a new Digital International Quaternary Map of the Arctic (IQUAMAR)**

S. Baranwal, J. Knies & S. Sauer: **Foraminiferal communities of hydrocarbon seeps from the continental shelf offshore Vesterålen, Northern Norway**

V.K. Bellec, R. Bøe, L. Plassen, N. Baeten, H. Olsen, D. Ottesen, L.R. Bjarnadóttir, A. Lepland, T. Thorsnes, M. Dolan & S. Elvenes: **Sediment maps of the Norwegian and Barents seas**

BGS Marine Geoscience (presented by D. Dove): **British Geological Survey remotely operated sea bed rockdrills and vibrocorders: new advances to meet the needs of the scientific community**

O.K. Bogolepova & A.P. Gubanov: ***Gloeocapsomorpha prisca* in early Silurian source rocks of the northern East Siberia**

O.K. Bogolepova, A. Carter & A.P. Gubanov: **Pilot apatite fission-track study of the Furongian sandstones from Severnaya Zemlya, Russian Arctic**

S.E. Box & T.E. Moore: **Deformational history of Alaska**

K. Brumley, M. Grove, K.E. Meisling & L.A. Mayer: **U-Pb detrital zircon geochronology of dredged metasediments from the Northwind Ridge, Arctic Ocean: Is this Chukchi Borderland part of Crokerland**

C.F. Castro, T. Funck. & J.R. Hopper: **The crustal structure of the Amundsen Basin in the Arctic Ocean derived from seismic refraction data**

A.A. Chernykh, V.Yu. Glebovsky, A.V. Egorova, A.G. Redko & R.A. Sukhanov: **Tectonic structure and evolution of the Alpha-Mendeleev Fracture Zone**

D. Chian, G.N. Oakey, H.R. Jackson, D.R. Hutchinson, N. Lebedeva-Ivanova, J. Shimeld, Q. Li, D.S. Mosher & R.W. Saltus: **Crustal Structure of the Canada Basin: new constraints from seismic reflection and refraction data**

B. Coakley, R. Forsberg, J. Beale, R. Gabbert & S. Kenyon: **New data support updating of the Arctic Gravity Project grid; Version 3.0**

W.K. Dallmann & P.I. Myhre: **Geoscience Atlas of Svalbard**

L.A. Daragan-Sushchova, L.R. Grinko, N.A. Petrovskaya & Yu. I. Daragan-Sushchov: **On the problem of stratigraphic assignment of the key seismic horizons on the East-Arctic Shelf and in the area of Central Arctic uplifts**

M. Dolezych, M. & L. Reinhardt: ***Protopiceoxylon yukonense* spec. nov. – an extinct conifer from the Northern Yukon / Mackenzie Delta area**

M.S. Doronina, A.M. Nikishin, N.A. Vasilyeva, A.I. Leybenko, T.S. Basalaeva & N.A. Kukina: **Geological evolution of the Norwegian Barents Sea South-East**

D. Dove, L. Polyak & B. Coakley: **Efforts to constrain extent and dynamics of past glaciation on the Chukchi margin and adjacent areas**

V.B. Ershova, A.V. Prokopiev, H. Lorenz, N.N. Sobolev, A.K. Khudoley, E. O. Petrov, S. Estrada, S. Sergeev, A. Larionov & T.B. Thomsen: **De Long Islands: provenance, paleogeography and geodynamic model**

S. Estrada, D. Damaske, F. Henjes-Kunst, G. Oakey, B. Schreckenberger, K. Eckelmann & U. Linnemann: **Onshore extension of the Alpha Ridge into the Yelverton Bay area? Evidence from aeromagnetic and geochronological data**

J. Evangelatos, D.C. Mosher & T. Funck: **Tectonic significance of seismic reflection and refraction data from Makarov Basin, Arctic Ocean**

J.I. Faleide, A. Mahajan, R.H. Gabrielsen, A.J. Breivik, S. Planke & R. Myklebust: **Basement and Late Paleozoic basin configurations in the western and central Barents Sea**

W. Fjeldskaar & A. Amantov: **Post-glacial uplift in the Barents Sea – determination of Earth rheology and implications for petroleum systems**

D. Franke, K. Piepjohn, C. Gaedicke, C. Brandes, B. Mouly, N. Sobolev, T. Tolmacheva, E. Weigelt & W. Jokat: **Sedimentary succession around the New Siberian Islands: onshore to offshore relation**

J.M. Frederick & B.A. Buffett: **Is submarine groundwater discharge a control on Arctic permafrost-associated gas hydrate formation on the Beaufort Shelf?**

T. Funck, J. Gerlings, J.R. Hopper, C.F. Castro, C. Marcussen, T. Nielsen & A. Døssing: **The East Greenland Ridge: Geophysical mapping and geological sampling reveal a highly segmented continental sliver**

C. Gaina, R.J. Watson & J. Cirbus: **Late Mesozoic- Cenozoic plate boundaries in the North Atlantic – Arctic: Quantitative reconstructions using Hellinger criterion in GPlates**

D.G. Gee, A.N. Larionov, H. Lorenz & A. Simonetti: **Mesoproterozoic crystalline basement, intruded by Timanian granites, beneath the Pechora Basin and within the foreland and fold-and-thrust belt of Arctic Urals**

W.H. Geissler, A. C. Gebhardt, F. Gross, J. Wollenburg, L. Jensen, M.C. Schmidt-Aursch & S. Krastel: **Slope stability, gas hydrates, and methane seepage at the shelf north of Svalbard**

W.H. Geissler, J. Knies, T. Nielsen, C. Gaina, J. Matthiessen, A.C. Gebhardt, V. Damm, M. Forwick, B. Hjelstuen, J. Hopper, K. Husum, J.S. Laberg, W. Kürschner, C. Morig, M. Schreck, A. Tripathi, C. Vogt, M. Rebesco, S.-H. Nam, A. Carlson, S. De Schepper, R. Lucchi, R. Mattingsdal, W. Jokat & R. Stein: **The Opening of the Arctic-Atlantic Gateway: Tectonic, Oceanographic and Climatic Dynamics - an IODP Initiative**

L. Gernigon, A. Blischke, A. Nasuti & M. Sand: **Conjugate volcanic rifted margins, sea-floor spreading and microcontinent: Insights from new high-resolution aeromagnetic surveys in the Norway Basin**

S. Gradmann, M. Keiding, O. Olesen & Y. Maystrenko: **3D Stress and Strain Modeling in Nordland, Northwestern Norway**

T.B. Grant & R.B. Larsen: **The Reinfjord Ultramafic complex, Seiland Igneous Province, Northern Norway**

A.P. Gubanov & B.L. Nikitenko: **Jurassic biostratigraphy of Eastern Taimyr, Arctic Siberia**

A.P. Gubanov & W.D. Mooney: **World Basement Geological Map - a new platform for global reconstructions**

E. Halvorsen: **Magma flow and stress induced magnetic fabric inferred from AMS analysis. A Case study in Early Cretaceous sills from the Diabasodden suite (HALIP), Svalbard**

J.C. Harrison, T. Lynds, A. Ford & R.H. Rainbird: **New geological compilation maps and spatial datasets for Canada's Arctic Islands**

D.R. Hutchinson, D. Chian, H.R. Jackson, N. Lebedeva-Ivanova, J. Shimeld, Q. Li, D.S. Mosher, R. Saltus & G.N. Oakey: **Crustal Structure of the Canada Basin: new constraints from seismic reflection and refraction data**

I. Ilhan & B. Coakley: **Structure and stratigraphy of the Northwind Basin and southern Chukchi Borderland from multi-channel seismic (MCS) reflection data: implications for regional geology and tectonics**

N.M. Ivanova, N.V. Amelin, M.A. Veretennikova, L. Miles, I.V. Belyaev & D.G. Gee: **The East-Barents Mega-Depression and its relationship to adjacent tectonic elements**

W. Jokat: **Crustal structure off NE Greenland – a review**

Y.B. Kazmin, H. Brekke, E.I. Petrov, A.M. Nikishin, L.I. Lobkovskiy & V.A. Poselov: **Evolution of the Amerasian Basin – a Tectonic Model**

P.K. Kepezhinskas, G.M.D. Eriksen & N.P. Kepezhinskas: **Ultramafic to mafic magmas in Norwegian Arctic: geochemical evidence for the multiplicity of mantle sources**

M. Keiding, S. Gradmann, O. Olesen, Y. Maystrenko & the NEONOR2 working group: **Neotectonics in Nordland, NEONOR2 – Implications for petroleum exploration**

A.K. Khudoley, V.E. Verzhbitsky, D.A. Zastrozhnov & V.B. Ershova: **Mesozoic tectonic events in the Eastern Taimyr Fold and Thrust Belt and adjoining Yenisey-Khatanga Depression**

C.G. Kingsbury, R.E. Ernst, B.L. Cousens, M.-C. Williamson & Y. Xia: **High Arctic LIP in Canada: Nd isotopic evidence for the role of crustal assimilation**

S.A. Klotsko, N.W. Driscoll & L. Keigwin: **Sedimentological and stratigraphic evidence for a multiple floods along the Beaufort Margin, Arctic Ocean**

J.B. Koehl, S.G. Bergh, K. Indrevær, H. Stunitz, T. Henningsen & A. Ingebrigtsen: **Onshore-offshore relationships on the SW Barents Sea with emphasis on the Troms and Finnmark coastal areas: faul correlation, tectonic landscape and margin architecture**

J.S. Laberg, T.A. Rydningen: **On the quantification of late Cenozoic glacial erosion of northern Norwegian – southwestern Barents Sea continental margin (69-74°N)**

T.R. Lakeman, A.J. Pieńkowski, F.C. Nixon, M.F.A. Furze, S. Blasco & J.T. Andrews: **Age and origin of multiple ice-rafted debris horizons in the Canadian Beaufort Sea: implications for Arctic Ocean stratigraphy and paleoclimate**

E. Larsen, W. Fjeldskaar, O. Fredin, A. Lyså & D. Ottesen: **Asynchronous Last Glacial Maximum of the Fennoscandian ice sheet**

R.O. Lease, D.W. Houseknecht & A.R.C. Kylander-Clark: **Colville Basin response to Arctic tectonics and climate: 3<sup>rd</sup> and higher order Aptian-Albian depositional sequences**

N. Lebedeva-Ivanova, C. Gaina, A. Minakov & S. Kashubin: **A crustal thickness model of the Arctic Region from 3D gravity inversion**

G.V. Ledneva, V.L. Pease & B.A. Bazylev: **The late Triassic volcanic and subvolcanic rocks of the Vel'may terrane (Chukchi Peninsula) and their geodynamic setting**

M.A. Levitan, T.A. Antonova, T.N. Gelvi & W. Jokat: **Triassic-Pliocene sedimentation history in the Circum-Arctic belt: A quantitative approach and possible influence for the Arctic Ocean sedimentation**

M.V. Luchitskaya, S.D. Sokolov, S.A. Sergeev, A.B. Kotov, L.M. Natapov, E.A. Belousova & S.M. Katkov: **Neoproterozoic and Late Paleozoic granitoids of Wrangel Island and North Chukotka**

E.R. Lundin, A.G. Doré, A. Gibbons, T. Sømme, B.O. Tørudbakken & B. Hendriks: **Opening of the Arctic oceanic basins – constraining the model, and some implications**

E.O. Malysheva, E.M. Volfovich, N.A. Vasilyeva, M.S. Doronina, A.I. Leybenko & N.A. Kukina: **Paleogeographic reconstructions in Western Barents Sea, Sto formation (J1-J2)**

G.M. Manby & N. Lyberis: **The North Greenland dyke swarm within the Greenland-Svalbard convergence zone**

E.L. Miller, T.A. Dumitru, M.J. Grove, E. Gottlieb, K. Meisling & V.V. Akinin: **Re-interpretation of the structural geology of Wrangel Island based on the onshore geology of Chukotka and offshore deep crustal seismic data**

A.V. Moiseev, S.D. Sokolov, M.I. Tuchkova, V.E. Verzhbitsky: **Early Carboniferous (?) volcanic complex of the Wrangel Island**

D.C. Mosher, D. Hutchinson, L.A. Mayer & C. Marcussen & J. Verhoef, J.: **Geoscience for extended continental shelf mapping in the Arctic Ocean**

A. Mørk & B.A. Lundschieen: **The Triassic Svalbard Hydrocarbon Play Model; A prospective model for the Barents Shelf**

F. Niessen, R. Stein, L. Jensen, M. Schreck, J. Matthiessen, W.M Jokat, J.K. Hong, J.K. & S.-Il Nam: **Pleistocene ice-grounding events along the East Siberian margin and on the Lomonosov Ridge: Implications for circum-arctic ice shelves in the Arctic Ocean?**

G.N. Oakey & R.W. Saltus: **Sever Spur - Chukchi Plateau: Conjugate Margins?**

V.V. Obmetko, N.A. Malyshev, T.M. Streltsov, V.E. Verzhbitskiy, A.A. Borodulin, Yu.V. Reydik & B.I. Ikhsanov: **Results of the Arctic Shelf Exploration Works performed by Rosneft in 2012–2014**

G. Odden, A. Minakov & J. Schweitzer: **The lower crust and upper mantle beneath Svalbard and the Western Barents Sea: evidence from combined active-source and array seismology.**

O. Olesen, M. Brønner, E. Dalsegg, O. Fredin, J.S Rønning & T. Solbakk: **The strandflat - a Mesozoic weathered paleosurface exhumed and eroded in the Pleistocene?**

P.T. Osmundsen, A. Braathen & H. Maher: **Structural framework at the NE Atlantic-Arctic margin junction: the Devonian Keiserhjelmen Detachment, Northern Svalbard**

G. Panieri, A. Lepland, C. Graves, A. Schneider, C. Consolaro, W. Hong, R. James & J. Mienert: **Fossil bioarchives to discover and track methane releases in the Arctic**

C.C. Parry: **Wilson Cycles and the Opening of the North Atlantic & Norwegian – Greenland Sea**

Z. Pastore, C. Fichler & S. McEnroe: **Potential field modelling of the Seiland Igneous Province in the geodynamic framework of the northern Baltican margin**

I. Pathirana & J. Knies: **Holocene primary productivity variability and sea ice coverage in the western Barents Sea**

H. Patton, K. Andreassen, M.C.M. Winsborrow, A. Auriac & A. Hubbard: **Numerically modelling extensive glaciation of the Eurasian Arctic**

V. Pease & I. Nobre Silva: **Age and geochemistry of Cretaceous basalts from Axel Heiberg, Canada**

O. Petrov, N. Sobolev, G. Grikurov, S. Shokalsky, I. Pospelov, I. Kashubin & E. Petrov: **Structural-tectonic zoning of the Arctic'**

K. Piepjohn, W. von Gosen, F. Tessensohn & L. Reinhardt: **The Eureka deformation in the Arctic – architecture and kinematics of a strange foldbelt**

A. Plaza-Faverola, S. Vadakkepulyambatta, K. Waghorn, J. Johnson, J. Mienert & S. Bünz: **Seismic characterization of a > 100 km long hydrate province close to an oceanic ridge-transform fault complex in Fram Strait, Arctic Ocean**

L. Polyak, D. Dove, S. Kim, S.-II Nam, F. Niessen & Bernard Coakley: **A complex pattern of marine glaciations on the Amerasian Arctic margins**

A. Portnov, S. Vadakkepulyambatta, J. Mienert & A. Hubbard: **Arctic methane storage and release across a formerly glaciated polar margin**

A.V. Prokopiev, V.B. Ershova, O.A. Anfinson, A.K. Khudoley, D.A. Vasiliev & D.F. Stocki: **Mesozoic-Cenozoic Tectonic History of New Siberian Islands**

V.A. Poselov, V.V. Butsenko, S.M. Zholondz & A.A. Kireev: **Seismic stratigraphy of sedimentary cover in Central Arctic Uplifts Complex, Amerasia Basin**

T.F. Redfield & E.R. Lundin: **Wiping the Arctic Windshield: On plate kinematics, hyperextension, and Alpha-Mendeleev magmatism**

L. Reinhardt, K. Piepjohn, W. von Gosen & S. Estrada: **Early Cenozoic Eureka deformation: Attempts to refine the dating of deformation phases**

Yu. V. Reydik, N.A. Malyshev & V.V. Obmetko: **Hydrocarbon Potential of the Russian Western Arctic: New Data and the Results of Exploration in the Pechora and Barents Seas**

D. Roberts, A. Nasuti & L. Gernigon: **Blind mafic dykes of Ediacaran, Devonian and Carboniferous age revealed by high-resolution aeromagnetic data, Finnmark Caledonides, North Norway**

D. Rüther, K. Andreassen, M.C.M. Winsborrow & M. Forwick: **Grounding line proximal sedimentary processes at a marine-based ice stream surge margin, northern Barents Sea**

V. Schlindwein & F. Schmid: **Contrasting spreading processes at Gakkel Ridge across 3°E boundary shaped the Arctic Ocean lithosphere**

M.C. Schmidt-Aursch & W. Jokat: **Tectonics and magmatism of the western Gakkel Ridge**

G. Shephard & C. Gaina: **Reconstructing extinct and current Arctic oceans from surface and mantle constraints**

J. Shimeld, Q. Li, D. Chian, N. Lebedeva-Ivanova, R. Jackson, D. Mosher & D. Hutchinson: **Spatial trends of seismic velocity within the sedimentary succession of the Canada Basin and southern Alpha-Mendeleev Ridge: Evidence for accelerated porosity reduction?**

E. V. Shipilov: **On the strike slip zone between Chukotka and Arctic Alaska and the possible mechanism of the disclosure of the Canadian Basin**

A. Shulgin & R. Mjelde: **Crustal structure of the South Barents Sea shelf**

N.N. Sobolev, L.A. Daragan-Suscheva & E.O Petrov: **New data on structural and tectonic zoning and evolution history of the Northeast Arctic**

M.R. St-Onge, J.C. Harrison, D. Paul, S. Tella, T.A. Brent, C. Jauer & B.C. MacLean: **Tectonic Map of Arctic Canada**

C. Tegner, N.H. Stolbov, H. Svensen, E. L. Brown & S. Planke: **Cretaceous magmatism of Svalbard and Franz Josef Land: Petrogenesis of the High Arctic Large Igneous Province**

E.V. Vatrushkina, S.A. Sergeev & S.D. Sokolov: **Composition and geochronology of the Cretaceous volcanic formations, Central Chukotka**

V.E. Verzhbitskiy, N.A. Malyshev, V.V. Obmetko, A.A. Borodulin & I. Ikhsanov: **Geology and hydrocarbon potential of the East Siberian - Chukchi Sea region**

E. Weigelt & W. Jokat: **Seismostratigraphy of the Eastern Makarov Basin and adjacent Lomonosov Ridge and Mendeleev Ridge**

Williamson, M.-C.: **Parallel rift basin tectonics and magmatism in the Sverdrup and Canada basins**

M. Winsborrow, K. Andreassen, A. Hubbard, A. Plaza Faverola & E. Gudlaugsson: **Gas hydrate regulation of ice stream flow**

X. Zhang, V. Pease, J. Skogseid & C. Wohlgemuth-Ueberwasser: **U-Pb detrital zircon provenance investigations of late Paleozoic to Mesozoic sandstones from Taimyr Peninsula, Russia, and their tectonic implications**

K.J. Zieba & M. Felix: **How to assess glacial sedimentary conditions in the light of missing local data?**
