

## Publications

- Engvik A.K., Ihlen P.M., Austrheim H. (2014).* Characterisation of Na-metasomatism in the Sveconorwegian Bamble Sector of South Norway. *Geoscience Frontiers*, 5, 659-672.
- Engvik A.K., Grenne T., Lutro O., Meyer G.B. (2014).* Metamorphic constraints on the Caledonian Upper Allochthon of Central Norway: the Gula Complex staurolite-garnet-kyanite mica schist. In: Corfu F., Gasser D., Chew D.M. (eds.) *New Perspectives on the Caledonides of Scandinavia and Related Areas*. Geological Society, London, Special Publications 390, <http://dx.doi.org/10.1144/SP390.6>
- Elvevold S., Engvik A.K. (2013).* Pan-African decompressional P-T path recorded by granulites from central Dronning Maud Land, Antarctica. *Mineralogy and Petrology*, 651-664.
- Hendriks B.W.H., Engvik A.K., Elvevold S. (2013).* 40Ar/39Ar record of late Pan-African exhumation of granulite facies terrain, central Dronning Maud Land, East Antarctica. *Mineralogy and Petrology*, 665-677.
- Engvik A.K., Mezger K., Wortelkamp S., Bast R., Corfu F., Korneliussen A., Ihlen P., Bingen B., Austrheim H. (2011)* Metasomatism of gabbro – mineral replacement and element mobilization during the Sveconorwegian metamorphic event. *Journal of Metamorphic Geology*, 29, 399-423.
- Engvik A.K., Austrheim H., Ihlen P., Korneliussen A., Putnis A. (2011).* Metasomatic formation and replacement of apatite (Bamble sector, south Norway). *Proceedings of the International Conference of Applied Mineralogy (ICAM Ed. MATM Broeckmans)*, 163-170.
- Engvik A.K. and Austrheim H. (2010).* Formation of sapphirine and corundum in scapolitised and Mg-metasomatised gabbro. *Terra Nova*, 22, 166-171.
- Engvik A.K., Golla-Schindler U., Berndt J., Austrheim H., Putnis A. (2009).* Intragranular replacement of chlorapatite by hydroxy-fluor-apatite during metasomatism. *Lithos* 112, 236-246.
- Engvik L., Stöckhert B. and Engvik A.K. (2009)* Fluid infiltration, heat transport and healing of microcracks in the damage zone of magmatic veins – numerical modelling. *Journal of Geophysical Research – Solid Earth*, 114, B05203, doi:10.1029/2008JB005880.
- Bingen B., Davis W.J., Hamilton M.A., Stein H.J., Engvik A.K., Skår Ø., Nordgulen Ø. 2008.* Geochronology of high-grade metamorphism in the Sveconorwegian belt, S Norway: U-Pb, Th-Pb and Re-Os data. *Journal of Norwegian Geology*, 88, 13-42.
- Austrheim H., Putnis C., Engvik A.K., Putnis A. (2008).* Zircon coronas around Fe-Ti oxides: a physical reference frame for metamorphic and metasomatic reactions. *Contributions to Mineralogy and Petrology*, 156, 517-527.
- Engvik A.K., Putnis A., FitzGerald J., Austrheim H., (2008).* Albitization of granitic rocks: The mechanism of replacement of oligoclase by albite. *The Canadian Mineralogist*, 46, 1401-1415.
- Robinson P., Solli A., Engvik A., Erambert M., Bingen B., Schiellerup H. and Njange F. (2008).* Solid solution between potassic-obertiite and potassic-fluoro-magnesio-arfvedsonite in a silica-rich lamporite from northeastern Mozambique. *European Journal of Mineralogy*, 20, 1011-1018.
- Putnis C.V., Austrheim H., Engvik A.K., Putnis A. (2008).* A mechanism of fluid transport through minerals - Implications for element mobilization within the Earth. *Proceedings of the 9th International Congress for Applied Mineralogy, Brisbane, Australia*, 625-629.

*Engvik A.K., Tveten T., Bingen B., Viola G., Erambert M., Feito P., de Azavedo S. (2007)* P-T-t evolution and textural evidence for decompression of Pan-African high-pressure granulites, Lurio Belt, northeastern Mozambique. *Journal of Metamorphic Geology* 25, 935-952.

*Engvik, A.K. & Stöckhert, B (2007)*. The inclusion record of fluid evolution, crack healing and trapping from a heterogeneous system during rapid cooling of pegmatitic veins (Dronning Maud Land; Antarctica). *Geofluids*, 7, 171-185.

*Engvik A.K., Andersen T.B. & Wachmann M. (2007)*. Inhomogeneous deformation in deeply buried continental crust, an example from the eclogite-facies province of the Western Gneiss Region, Norway. *Norwegian Journal of Geology* 87, 373-389.

*Engvik A.K., Elvevold S., Jacobs J., Tveten E., de Azevedo S., Njange F (2007)*. Pan-African granulites of central Dronning Maud Land and Mozambique - a comparison within the East-African-Antarctic Orogen. A Keystone in a Changing World – Online Proceedings of the 10th ISAES, edited by A.K. Cooper and C.R. Raymond et al., USGS Open-File Report 2007-1047. DOI: 10.3133/of2007-1047.srp065.

*Engvik, A.K. & Elvevold, S. (2006)* Late Pan-African fluid infiltration in the Mühlig-Hofmann and Filchnerfjella of central Dronning Maud Land, Antarctica. In: Fütterer DK, Damaske D, Kleinschmidt G, Miller H, Tessensohn F (eds), *Antarctica: Contributions to global earth sciences*. Springer-Verlag, Berlin Heidelberg New York, pp. 55-62.

*Engvik, A.K., Bertram, A., Kalthoff, J., Stöckhert, B., Austrheim, H. & Elvevold, S. (2005)*. Magma-driven hydraulic fracturing and infiltration of fluids into the damaged host rock, an example from Dronning Maud Land, Antarctica. *Journal of Structural Geology*, 27, 839-854.

*Engvik, A.K. & Elvevold, S. (2004)*. Pan-African extension and near-isothermal exhumation of a granulite facies terrain, Dronning Maud Land, Antarctica. *Geological Magazine*, 141-6, 1-12.

*Engvik, A.K., Austrheim, H. & Erambert M. (2001)*. Interaction between fluid flow, fracturing and mineral growth during eclogitization, an example from the Sunnfjord area, Western Gneiss Region, Norway. *Lithos*, 57, 111-141.

*Engvik, A.K., Austrheim, H. & Andersen, T.B. (2000)*. Structural, mineralogical and petrophysical effects on deep crustal rocks of fluid-limited polymetamorphism, Western Gneiss Region, Norway. *Journal of Geological Society, London*, 157, 121-134.

*Engvik, A.K. & Andersen, T.B. (2000)*. Evolution of Caledonian deformation fabrics under eclogite and amphibolite facies at Vårdalsneset, Western Gneiss Region, Norway. *Journal of Metamorphic Geology*, 18, 241-257.

*Svensen, H., Jamtveit, B., Yardley, B., Engvik, A.K., Austrheim, H. & Broman, C. (1999)*. Lead and bromine enrichment in eclogite facies fluids: Extreme fractionation during lower crustal hydration. *Geology*, 27, 467-470.

*Austrheim, H. & Engvik, A.K. (1998)*. Discussion of Continental eclogites and the Wilson Cycle by P.D. Ryan & J.F. Dewey. *Journal of Geological Society, London*, 155, 423-424.

*Austrheim, H., Erambert, M. & Engvik, A.K. (1997)*. Processing of crust in the root of the Caledonian continental collision zone: the role of eclogitization. *Tectonophysics*, 273, 129-153.

*Austrheim, H. & Engvik, A.K. (1997)*. Fluid transport, deformation and metamorphism at depth in a collision zone. In: *Fluid flow and transport in rocks: mechanisms and effects*. Ed: B. Jamtveit & B.W.D. Yardley. Chapman & Hall, 123-138.
